

NSR Hotel Security Solutions

The Netherlands

Delivering
Security
that Works

CASE STUDIES

Hyatt, Amsterdam

Postillion, Dordrecht

PROCEDURES

Automatic management of operational processes

SURVEILLANCE

Seamless surveillance across multiple cameras and locations

TRACKING

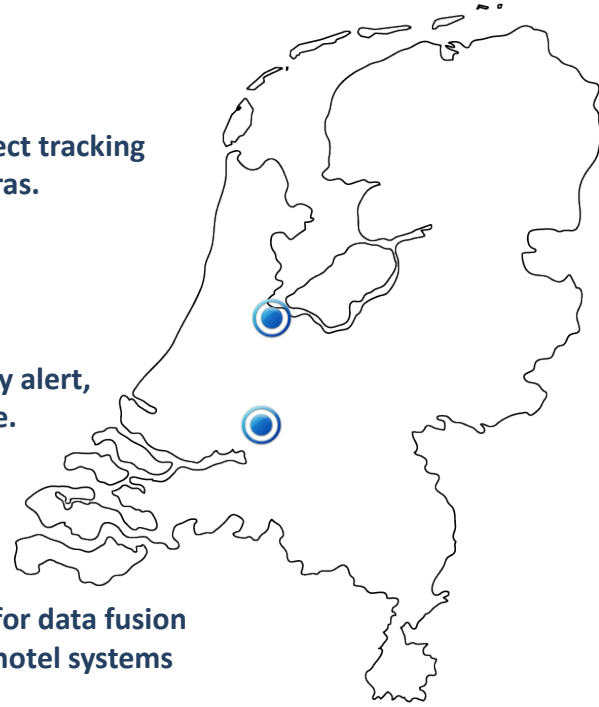

Seamless moving object tracking across multiple cameras.

ANALYTICS

Headcount, occupancy alert, A/C control, and more.

C&C

Command & Control for data fusion and integration with hotel systems

OVERVIEW

NSR offers leading hotel networks a discreet, user friendly security & operational management y solution, with seamless coverage, real-time management capabilities, and integration with hotel operational systems.

MAIN OPERATIONAL DELIVERY

- Seamless visual monitoring of guests, staff, and objects
- Endless tracking of visual target across all cameras
- Guest headcount: hotel entry/exit, room entry/exist, dining room
- Monitoring of activity in No Entry/Staff Only areas
- Integration with room/lift/access control systems
- Automatic check in/check out
- Reservations tracking
- Room service management
- Hotel parking management

SUCCESS STORIES

HIT & RUN – surveillance system data identified perpetrator

EVIDENCE – several cases of system data presented in court

THEFT – identified culprit in a case of stolen goods from storage

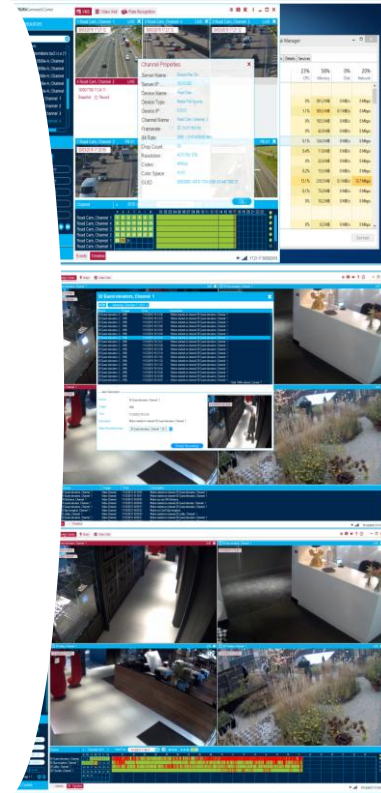

ENSURA COMMAND & CONTROL

ENSURA Command & Control integrates data from all cameras and operational systems, providing operators of all types with actionable information and real-time response capabilities.

ENSURA C&C ensures smooth “handover” between monitoring elements (tracking an object across multiple sensors), and between operational systems (door closing triggers light switch).

The C&C receives, integrates, analyzes, and releases information to users across the hotel organization, according to predefined procedures and permissions.

MOVING OBJECT TRACKING

- Absolute surveillance across multiple cameras.
- Operational connectivity of all cameras for complete Field of vision & Line of Sight.
- “Back to the future “ - track a moving object at X16.

OPERATIONAL INTEGRATION

- Guest headcount
- Environmental control
- Snack Bar & Room Service tracking
- Access Control
- Reservations & Check In
- Parking Management

ANALYTICS

- Headcount comparison
- Alert for unexpected occupancy
- Configuration of No Entry zones

The NSR Group

NSR designs, implements , and supports advanced solutions that empower end users to manage Smart Cities, Transportation Hubs, Emergency Response Centers, and more.

Out of The Box - our thinking, designs and solutions are operationally oriented and adaptable to real-world situations.

Leverage Assets – we enable and upgrade existing sensors , legacy systems, and operational platforms.

Design for Growth - NSR designs solutions that grow with your needs and expand with new technologies.

Tried & Tested - proven technology, integration, and delivery capabilities across multiple global sites.
